

This is the 5th edition of Valeo Innovation Challenge! Here below what has been changed since the last edition;

- It's still oriented to **students in all disciplines** but now there is one big prize to share among the **3 best projects**.

For the 9 finalist teams  
**16 weeks** to accelerate your project

For the 9 selected teams  
**Pitch in Paris**

- Now students have to pitch their idea **in a video (3 mins max)** in one of these categories: **Electrification of vehicle, Autonomous vehicle or Digital mobility**

- Registration **period is longer**, students have **until March 30** to submit their projects. **The top 9 project** will be accelerated by experts and all of them will **come to Paris** to pitch in front of the jury members **on October 12**.
